Rachit Gupta

Frontend Developer

My career objective as a Front-End Developer is to leverage my expertise in **HTML**, **CSS**, **JavaScript**, and **React js** to design and develop exceptional user interfaces and user experiences that meet the needs of clients and users. I aspire to work in a collaborative and dynamic environment that allows me to learn, grow, and utilize my skills to contribute to the success of the team and organization.

EXPERIENCE

apr 2022 - july 2022
Business Cradle Technologies Pvt. ltd.
Frontend Developer Intern

- Developed using **CSS**, **HTML**, and **JavaScript** to **enhance functionality** and user experience on web pages.
- **Participated** in daily Tech **team meetings** to discuss current and future projects and strategies on how to produce efficient work.
- **Led** a **small team** to develop a Virtual Reality project as a potential **idea** for new company services.
- Edited existing **codes** to **improve** browser compatibility and mobile **responsiveness**.

PROJECT

Food Delivery Website

https://food-delivery-website-57819.web.app/

Created a user account system that allows registered users to save their preferences and order history for future orders.

- Implemented **CRUD** (Create, Read, Update, Delete) operations to allow users to create and manage their accounts, view and edit their profile information, and manage their past and current orders.
- Utilized modern web technologies such as **HTML**, **CSS**, **JavaScript**, and a front-end framework like **React js** to create an engaging and interactive website.
- Developed a **responsive** layout that adjusts to fit various screen sizes, making the website accessible on desktop, laptop, tablet, and mobile devices.

Portfolio Website

https://portfolio-cd1bf.web.app/

Developed a professional portfolio website using modern web technologies to showcase skills, experience, and achievements in a clear and concise manner.

- Created a dedicated section to **showcase** previous **projects** in software development, web design, and data analysis, with detailed descriptions, screenshots, and related resources.
- Optimized the website to be fully **responsive** across all devices, including desktops, laptops, tablets, and smartphones.
- Demonstrated strong technical skills in web development, including **React js**, **HTML**, **CSS**, **JavaScript**, **API**, and **Amazon Web Services**.

Movie Download Website

https://trendsofmovie.netlify.app/

Developed a dynamic website that displays current trending movies, popular movies, and upcoming movies.

- Designed a **responsive** layout that adjusts to fit various screen sizes, making the website accessible on desktop, laptop, tablet, and mobile devices.
- Implemented a **search functionality** allowing users to search for movies based on title, genre, or release year.
- Utilized modern web technologies such as **HTML**, **CSS**, and **JavaScript** to create an engaging and interactive website.
- Utilized an external **API** to **fetch** and display movie data, providing a seamless user experience with real-time updates
